

APPENDIX

AMENDMENTS TO THE SPECIFICATION

Please amend the specification by replacing the following paragraphs:

(1) Page 3, lines 6-8:

The metabolizable oil is utilized in the vaccine composition ~~is in an~~ immunogenically stimulating amount, along with other conventional vaccine excipients.

(2) Page 5, lines 21-27:

The adjuvant utilized in the vaccine composition includes at least one immunostimulating ~~oils oil~~ which is metabolizable by the target species. Metabolizable oils suitable for use in the composition of the invention include oil emulsions, *e.g.*, SP oil (hereinafter described), ~~Emulsigen~~ EMULSIGEN<sup>®</sup> (~~MPV—a stable, oil-in-water emulsion available from MVP Laboratories, Inc., Ralston, NZ NE~~), ~~Montanide~~ MONTANIDE<sup>®</sup> 264,266,26 (~~oil vaccine adjuvants available from Seppic SA, Paris, France~~), as well as peanut oil and other vegetable-based oils, squalane (shark liver oil) or other metabolizable oils which are suitable for use an adjuvant in veterinary vaccine practice.
